

Grade 3/4

Hello! Welcome to the very first edition of the Grade 3/4 News! We hope that you will enjoy reading about what we've been up to so far this year in all of our different classes. As you read our newspaper you'll see some writing about each class, some fun art, puzzles and funny facts to make you laugh! We hope you'll enjoy it!

The LA Report

By Christopher

In L.A we are reading and writing fractured fairy tales. Our first story was "The Knight's Tail" and we figured out that Rapunzel gave the knight a potion in his tea so he would grow a tail. Now we're seeing who made Humpty Dumpty fall off the wall. Right now the suspect is not an honest person. You can read some of our fractured fairy tales that we wrote later in the newspaper.

Social Studies

By Tempe bartel and Sophia Kroeker

In Social studies we have been learning about Tunisia, with Miss. Nudd. We learn about a Dramadry. It's a camel but it only has one hump! It's Sooo cool. We have also been learning about the fennec fox. They're So cute! They are small, cute and fluffy. They also have big ears. This is a tunisian family. In the city the families usually have 2 to 3 kids. In the country they usually have 5 to 6 kids. Moms stay home and make food and clean. The kids go to school, 6 hours in the morning and 3 in the afternoon. The father will make all the money and do the work each day. The older kids will help their moms clean the house. The houses will sometimes be built on the side of a mountain side. In the city they will build the house themselves. The houses look very nice! Their rugs look very very pretty. Camels have two humps and dromedaries have one. Camel racing is fun and takes lots of practice

3\4 Gym

By Adis, Gage and Caleb

In the gym we are working on volleyball so we're working on serves, bumps and sets and others. So at the start of gym class we do warm up games like snakes in the grass, skittles and toilet tag. So also when we go outside we sometimes play capture the flag and food and water. And inside the gym we play dodgeball and other kinds of games. And throughout the year we switch sports like volleyball, basketball, a little bit of hockey and maybe some other sports. And it's really fun!

Today we will see what the 3\4 have been doing in the gym. We just started practicing playing volleyball. First, we did bumping which if you hold your hands wrong you could get seriously hurt.

After that we practiced underhand serving between a partner, that was the end of our first gym doing volleyball. The next gym we did circuits, on the first circuit it was serving. Remember to hold your hand like you're about to punch someone and to hit the ball on the heel of your hand. The next circuit is skipping. The third circuit is bumping. REMEMBER TO HOLD YOUR HANDS RIGHT OR ELSE YOU COULD BREAK YOUR HANDS!!!!!! That is all I can remember.

We play volleyball, snakes in the grass, capture the flag and toilet tag!

Bible News

By Lexi and Kyla

We get to have Bible class with Pastor Dave! We listen to music about God, and do actions to the Song. We would learn about the fruit of the Spirit like you would probably know love, joy, peace, patience, kindness, goodness, gentleness, faithfulness, and self control. We would play very fun games! My favorite game is Musical Back To Back. We are learning a Song to memorize the New Testament. We have chapel sometimes which is Bible class, just in the gym. We read our Bible sometimes in chapel and we read our Bible every day in devotions with Miss Wolfe. We play music games. We eat Gummies, and suckers. We also have snacks. Bible is lots and lots and lots of FUN!!!! Well that's what I think. Thanks for reading!

Fun Science Facts!

By Everly and Adriele

In science we have learned lots about rocks and minerals. We found out that when water gets into rocks and freezes it breaks. And we made rock cookies. We also crushed rocks into dust. And learned how they were made. And we also learned about the rock cycle. We started making rock candy crystals but they're not ready yet. We are practicing our rock and mineral facts together because we're going to do a quiz to see what we remember next week!

All About Math

By Alayna and Olive

We're learning about how numbers are worth different things, like hundreds, tens and thousands. We are going to teach you how to play Junk It:

Junk it is a simple game. On a white board or piece of paper you draw lines for the digit number you want, and a garbage can. Next your teacher should decide if you want to make the biggest number or the smallest number. Your teacher rolls a dice and you put the number in the place you think it should go in. There is no changing your number after you have put it somewhere. You also get one chance to put one number in the garbage, but only one. In the end, whoever has the biggest or smallest, (whichever you chose,) wins. Junk it very fun, especially when you get up to big digits! Playing it right before you do your math homework or work, it is very good for exercising and preparing your brain for it.

Funny Facts

By Sini and Kiffer

There is a pill that claims to make stinky farts smell sweet.
It's impossible to hum while holding your nose.
Humans are the only animals that like spicy food.
Potatoes were the first thing planted in space.
There is more trees on earth than the stars in the milky way galaxy.
Minecraft has been taught at school.
Bowser was originally envisioned as an ox.
Hot water will turn into ice quicker than cold water.
